## Auschwitz - fabricated medical experiment photo

This 'photograph' is widely distributed over the internet on 'Holocaust' remembrance sites, and purports to be evidence of medical experiments performed by 'evil' Nazi doctors at the 'death' camp Auschwitz. "Never Forget"

Examine this portion of the photo. Is it real?? Look at the detail and shading of the chest. Then re-examine the whole 'photo'. Look at the the other 'bodies'. Basic scrutiny reveals that it is a photograph of a painting (and a very bad one at that) to which cut out photos of heads have been added. The heads are all realistic, but the bodies are just ridiculous.

The whole thing does not make any sense. Are the facial expressions those of someone whose bodies have so obviously been subjected to horrendous experimentation??  
Exactly what type of experiment was it anyway??

The game is up - this 'photo' is a LIE.

Why do fake 'photographs' need to be manufactured ? The obvious answer is that there are no real ones, and this whole 'Evil Nazi Medical Experiments', should more correctly be titled 'Evil Jewish Hoax'.

These lies have been used to deflect from the real crimes of WW2, create anti-German hatred throughout the world, and justify the invasion and occupation of Palestine and the continuing genocide of it's people - a REAL holocaust.

Zionists occupy the governments of the US, Britain, Australia, Germany and most other wester countries, and any criticism of this is effectively suppressed by invoking the never-ending fairytale called 'The Holocaust'. Stand up to this crap !! Are you a patriotic citizen of your country, or a useless wimp ???
