

Policies

Policies of the NSPC concerning various issues of vital interest to Canadians:

Multiculturalism:

The NSPC believes that multiculturalism is multiracialism in disguise. Its promoters are not honest enough to call it that. We believe its ultimate goal is the displacement and marginalization of the host population - the White population. We strive with unlimited determination to undo the effects of that destructive policy. Under an NSPC government, only those of the White race will be citizens. All others will be either subjects of Canada or guest workers within Canada.

Immigration:

All non-White immigration should be stopped entirely including "refugees". Only Whites will be allowed to immigrate to a National-Socialist Canada.

Citizenship:

Only those persons of at least 75% White European ancestry will be citizens in a National-Socialist Canada. No racial Jew or anyone practicing the Jewish religion will qualify for citizenship. Those permanent residents who do not qualify for citizenship will have the status of subjects. Only citizens will have the right to vote or be elected to public office. The only exception will be native Indians who will have the right to vote for their own governing councils under a system of native Indian self-government.

Affirmative Action:

Affirmative action will be abolished except in the case of disabled veterans of the security services (police, firemen, and armed forces personnel).

Firearms Ownership:

Firearms ownership by law-abiding citizens will not only be allowed, it will be a fundamental right. Not only will it be a fundamental right, it will be encouraged. Never again will Jews control this land! We MUST have a well armed citizen militia to ensure that multiculturalism is never again forced down our throats. Non-citizens (i.e. non-Whites) will not be allowed to own or possess firearms. The only exception to this will be native Indians living on their own reserve lands. They will be allowed firearms for hunting purposes only.

Zionism:

Loyalty to Zionism and the Zionist entity in Palestine (the terrorist "state" of Israel) is treason to Canada and will be dealt with as such in a National-Socialist Canada.

The Media:

Only citizens will be allowed to work in the English or French media within Canada. Non-citizens (subjects or guest workers) will be required to publish or broadcast in a language that is neither English nor French. The exception to this will be the native Indian people of Canada who will be able to operate their own media in English, French, or any native language of their choosing.

Homosexual "Marriage":

Marriage is between a man and a woman! Homosexuality may or may not be genetically determined. According to the best available science on the subject, something goes wrong in the wiring of the brain during fetal development. In any case, it is clearly a pathology whether recognized by the Psychiatric Association or not. It is also increasingly a chosen lifestyle among many young people who think it is "cool". It is the position of the NSPC that homosexuals not be allowed to work in an environment where children or young adolescents will be present. They will not be allowed to adopt or care for foster children. They will not be allowed to serve in the military.

Abortion:

We regard the abortion of healthy White unborn children as a crime against God, Nature, and our race. We oppose it except in the following cases:

- Rape
- Incest
- Where a pregnancy puts the mother's health at risk

The Military:

We support a strong military for Canada. We do not support alliances which entangle Canada in foreign wars on behalf of International Jewry. We will, however, assist other White nations in their defense against non-White aggression if such assistance were requested. We regard that as coming to the aid of a family member.

We support compulsory military service for all male citizens. This will train them in patriotism, citizenship, self-defense, proper weapons handling, devotion to duty, and self-reliance. At the end of their service they will maintain possession of their assault weapons to further the existence of a well armed citizen militia.

Law and Order:

We support the principle of Law and Order. Any subject (non-citizen) found guilty of a crime will be repatriated to their ancestral homeland but only after serving their entire prison sentence (no parole for non-citizens).

Rights and Duties:

We consider that there are no rights without corresponding duties. The right to bear arms carries with it the duty not to commit murder. The right of free speech carries with it the duty to speak truthfully. We propose, as referred to in the [constitution](#), that a Charter of Rights and Duties be implemented and that it will become part of the Constitution of Canada.

Canadian Unity:

We regard Canada is an indissoluble federation. It can be reasonably argued that the separation of the West and the creation of a new White homeland in the West will be a solution to the poison of multiculturalism. However, the West is already poisoned in many of its urban areas. A comprehensive solution for the entire country is required. An equitable Senate, as proposed in the [constitution](#), together with cleaning up the multicultural mess will greatly benefit the West and the entire country.

Goals of the NSPC

We regard the current regime as being the servant of those who would displace and marginalize the White race and ultimately bring about its destruction. The NSPC is dedicated to the creation of a White racist state in Canada. Such a state would restore the White sovereignty within Canada which has been lost through multiculturalism and Marxist Political Correctness.

To this end we foresee the following steps:

- 1) Challenge by any and all legal means the Jewish influence on our news and entertainment mass media through developing our own media and utilizing the media of cooperating White organizations.
- 2) Establish local units throughout Canada which can be rapidly transformed into [resistance cells](#) as the future need arises.
- 3) Run NSPC candidates in national, provincial, or local elections where it is deemed strategically advantageous.
- 4) The current regime in Canada has failed to act in the interests of the White population of Canada and hence is rapidly losing legitimacy regardless of the party in power. We intend to position NSPC members in as many pivots of power as possible within government, the military, law enforcement, industry, and education to influence policy implementation at all levels. We regard this as developing a "government in waiting".

The Seven Points

The Seven Points of National Socialism

I. An honest man can never be happy in a naked scramble for material gain and comfort, without some goal which he believes to be greater than himself, and for which he is willing to sacrifice his own egoism. That goal, for us, is the upward struggle of our race and the fight for the common good of our peoples.

II. Society can function successfully, and therefore happily, only as an organism; that all parts benefit when each part performs the function for which it is best suited to produce a unified, single-purpose whole, which is then capable of outperforming any one part, the whole thus vastly increasing the powers of all cooperating parts, and the parts therefore subordinating a part of their freedom to the whole.

III. Man makes genuine progress only when he approaches Nature humbly, and accepts and applies her eternal laws.

IV. Struggle is the vital element of all evolutionary progress and the very essence of life itself.

V. No man is entitled to the services and products of the labor of his fellow men, unless he contributes at least an equal amount of goods or services of his own production or invention to the extent that he is able.

VI. It is to the advantage of society to see that every honest man has the freedom and opportunity to achieve his maximum potential by preserving his health, protecting him from unforeseeable and ruinous catastrophes, educating him to capacity in the areas of his abilities, and guarding him against economic and political exploitation.

VII. Adolf Hitler was the gift of an inscrutable Providence to a world on the brink of Jewish-Bolshevik catastrophe, and that only the blazing spirit of this heroic man can give us the strength and inspiration to bring the world a new birth of radiant idealism, realistic peace, international order and social justice for all men.

Proposed Constitution of Canada

THE CONSTITUTION OF NATIONAL-SOCIALIST CANADA

SCOPE:

All provisions of the Canadian constitution shall remain in force except where they conflict with the provisions in this document.

PREAMBLE:

The Constitution of Canada is based on the Seven Principles of National Socialism:

I. GOVERNMENT:

The government of Canada will consist of legislative, executive, and judicial branches.

A: Legislative (The House of Assembly and Senate):

1. House:

a) The House of Assembly will be elected by the citizens of Canada. Political parties may freely contest seats in the House of Assembly of Canada. All members of the House of Assembly of Canada must swear allegiance to this constitution and must be citizens of Canada. The Prime Minister shall be the leader of the party which enjoys the confidence of the House and must himself be a member elected to the House of Assembly.

b) The jurisdiction of the House of Assembly will include all powers within the domain of the government of Canada not explicitly assigned to the Senate. Where there is overlap with those powers assigned to the Senate, the House will exercise its powers in consultation with the Senate.

2. The Senate:

a) The Senate will consist of five members from each province and two from each territory. It will be initially composed of members selected by the chairman but will subsequently consist of members chosen by 50% plus one of the then current members of the Senate. All members of the Senate must swear allegiance to this constitution.

b) The Chairman of the Senate will be selected by the members of the Senate from among their own members. He can only be removed from office with a two thirds majority of its members. He is to serve for a period of five years. The chairman of the Senate will have the title President of Canada and will be Canada's head of state. The jurisdiction of the Senate will consist of all matters related to national security: defense, intelligence, foreign relations, citizenship and immigration, foreign trade, national police, and aboriginal affairs.

c) The Senate will have the power to veto any legislation passed by the House of Assembly. It will have the power to recommend amendments to any proposed legislation of the House of Assembly and it will have the power to enforce the amending of any legislation passed prior to the implementation of this constitution and for ten years after its implementation.

d) The Senate will be empowered to implement a Charter of Rights and Duties. This Charter must include the rights of free speech, peaceful assembly, freedom of religion,

and the right to bear arms by citizens. Once written and implemented the Charter can only be revised through an amendment to this constitution.

e) The Senate will be empowered to implement referenda on a national level concerning items deemed important. Citizens may petition the Senate to hold a referendum on matters of importance to the citizenry.

B. Executive

The executive branch shall include those agencies of government under the jurisdiction of the President or Prime minister (and their respective cabinets). Where the jurisdictions overlap the Prime Minister shall consult with the President.

C. Judicial

All judges and magistrates within Canada must be citizens of Canada and must swear allegiance to this constitution.

CITIZENSHIP:

Residents of Canada will consist of citizens, subjects, and guest workers.

I. Citizens must be of at least 75% White European extraction. They cannot be Jews or of the Jewish religion. Citizenship courts will be established under the judicial branch of government to judge all cases of ambiguous ancestry based on the best available science. Only citizens shall have the right to vote in elections at the national, provincial, and local levels. Only individuals of at least 75% White European ancestry shall qualify as naturalized citizens.

II. Subjects will be those permanent residents of Canada at the time this constitution is implemented who do not qualify for citizenship. The Senate may, at its discretion, implement policies encouraging and, if necessary, enforcing repatriation.

III. Guest workers will be those residents of Canada who do not have the status of citizen or subject. The Senate may, at its discretion, implement policies preventing the immigration of people who do not qualify for eventual citizenship.

IV. As subjects of Canada, the aboriginal people are not citizens and do not have the right to vote. However, the Senate may, at its discretion, give the aboriginal peoples self-government over their own territories with the accompanying right to vote on matters within their jurisdiction.

AMENDMENT:

This constitution may be amended only by a two thirds majority of The House of Assembly, a two thirds majority of the Senate, the endorsement by the President, and a 50% plus one vote in a referendum by the citizens of Canada.

Resistance

We are dedicated to peaceful revolutionary struggle for National Socialism and White sovereignty within Canada.

However, it must be remembered that Canada is not currently a free country but is under Jewish/Zionist control. We are suffering under Judeo-Liberalism and drifting toward [Judeo-Fascist](#) tyranny.

We support the right of political dissent for all White people in all lands. This implies resistance to the current status quo. We must be prepared for all eventualities, as much as that is humanly possible. We propose that our local units structure themselves as resistance cells modelled after the [Committees of Correspondence](#) prior to and during the American Revolution.

There will be difficult and challenging times ahead. Our strategy is that the Party be established on the basis of semi-autonomous cells consisting of 5 to 10 members each. Each cell should subdivide into two upon reaching 10 members. Each cell should then grow, through recruitment, to 10 members and subdivide again. This is analogous to cell division within biological organisms. As need arises, the various cells in each geographical area can cooperate on projects. It is the duty of each member not currently part of a cell to begin one through recruitment.

The basis for our belief in the establishment of our Party on the basis of semi-autonomous resistance cells is to be found in Mein Kampf:

[For] winning back the independence of a nation [...] it will suffice if a small remnant, no matter how small, of this nation and State will exist, provided it possesses the necessary independence to become not only the vehicle of the common spirit of the whole people but also to prepare the way for the military fight to reconquer the nation's liberty. --Mein Kampf Vol.2 Ch.13

Electoral Politics

The NSPC is a party dedicated to our [goals](#) and [policies](#). We are dedicated to peaceful revolutionary struggle against Marxist Political Correctness and Multiculturalism. We want to form a White racialist state under a new [constitution](#) and the [Seven Points](#).

To the degree that electoral politics furthers these aims, we shall participate. Any member of our party who chooses to run under our banner in an election at the national, provincial or local level will have our full support and cooperation.

Many fringe parties have come and gone over the years. They make it their goal to become a registered party and then build a base of support. Our approach is different. We intend to build a base of support and then run candidates under our banner as "independents". When we have elected a substantial number of those, then, and only then, will we begin the process of becoming an officially recognized party. We think that point will come when we have around thirty thousand Party members.

In the meantime, the Party is to be structured on the basis of semi-autonomous cells which we can think of as resistance cells against the emerging Judeo-fascist tyranny. Each cell should consist of between 5 and 10 members. It should grow through recruitment to 10 members and then split into 2 cells of 5 members each. The process then repeats itself. Each Party member not currently part of a cell has the duty to begin one.

The Flag

Our flag is the proposed flag of National-Socialist Canada.

Symbolism:

- 1) It represents the Sun rising over the Ocean.
- 2) It represents the Creator in relation to the Creation.
- 3) It represents a New Dawn of radiant idealism under National Socialism.
- 4) It represents the radiant Sun of National-Socialism rising over the the Ocean of the people bringing energy, light, idealism and racial health.
- 5) The two White wavy lines represent the two founding settler peoples, the British and French, who crossed the ocean to bring civilization to the area that is now Canada.
- 6) The Swastika is the sacred and ancient symbol of the White race and represents the creative attributes of our people and the ideals of National-Socialism.

We express our appreciation and thanks to our Portuguese comrade Nuno C. for the design of the flag.

Frequently Asked Questions

FAQs:

- [1\) What is the relationship between the NSM \(in the United States\) and the NSPC?](#)
- [2\) Is the NSPC an official party in Canada?](#)
- [3\) Is the NSPC a White Supremacist organization?](#)
- [4\) What are the duties of new members?](#)
- [5\) Does the NSPC have its own web forum?](#)

Q: What is the relationship between the NSM (in the United States) and the NSPC?

A: The NSPC supports the goals of the NSM in the United States. BUT, we consider ourselves to be the Party which represents National-Socialism in Canada. The NSPC was born on July 1st, 2006. It is now a member of the [World Union of National Socialists](#) representing Canada.

We have worked closely with the NSM since our Party was formed. Our Party leader did a number of radio shows which were broadcast by NSM88 Radio and can still be found in their archives. However, the NSPC and the NSM have a number of ideological, structural, and tactical differences.

Ideological: We support the [Seven Points](#) of National-Socialism based on the [Cotswold Agreement](#) worked out among various National-Socialist parties around the world under George Lincoln Rockwell's guidance. The NSM supports its [25 points](#) which resemble the [25 points of the NSDAP](#). We consider the 7 points to be fully implementable in Canada.

Structural: The NSM is organized as a hierarchy. We consider such a structure to be vulnerable to infiltration so we have structured the NSPC as [semi-autonomous cells](#). If such cells are infiltrated the contagion is limited to the infiltrated cell and does not go beyond that. Furthermore, local cells are more in tune with their local conditions and can respond to local situations more effectively than waiting for policy directives from the top down.

Tactical: The main difference on tactics is the open display of uniforms. Our policy on uniforms is that they are for our security detachment only and even this policy is yet to be implemented. 

Q: Is the NSPC an official party in Canada?

A: We have made the decision NOT to become an official party at this time. To become an official party we would need to provide the government with the names and addresses of 250 members of our Party. Those addresses would then become public knowledge as part of a public document (See [Link](#)). When our Party reaches 30,000 members we will request 500 volunteers to submit their names in order to become an official party.

Nevertheless, we intend to contest the next federal election which we expect in the late Fall (of 2007) or early Spring (of 2008). We will be running candidates as Independents with National-Socialist Party of Canada Endorsement.

We are working on our electoral platform. Here is a copy of the first draft (subject to revision):

The guideline for development of this electoral platform is the [Seven Points](#) of National-Socialism and our [Party Policies](#).

1) Immigration should be based on country of origin and should conform to the ethnic demographics of Canada at the time Canada was declared a "multicultural country" in 1988. The Multiculturalism Act of 1988 should either be amended to reflect the importance of preserving and enhancing the European derived peoples of Canada or repealed altogether.

2) The open door policy towards refugees should be revised. Refugees currently in Canada should be removed from the track towards citizenship and should instead be repatriated when conditions in their home countries allow. Refugees found guilty of a criminal offense are to be repatriated after serving their sentence regardless of conditions in their respective home countries. New refugees should not be allowed unless they serve to preserve and enhance the European derived peoples of Canada. Other refugees should be refused entry.

3) Illegal immigrants should be arrested and repatriated. Those who knowingly hire illegals should be charged with a criminal offence. Companies or corporations that hire illegals as a matter of policy should have their license to do business removed.

4) Given that gun ownership by law abiding citizens serves to reduce crime and given that gun ownership is part of the traditional Canadian way of life, responsible gun ownership is to be allowed and encouraged.

5) Capital punishment should be applied for severe offenses such as premeditated murder, the distribution of illegal drugs, treason, and rape when accompanied by physical violence or a death threat. In all death penalty cases, the decision whether to impose the death penalty or life imprisonment (as an alternative) should be left in the hands of a jury subsequent to the determination of guilt.

6) Abortion should be a last resort option and can only be justified in cases of rape or the physical or mental impairment of the unborn child to be determined by the best available science.

7) Canadians who are unable to work and who require assistance should receive it. Those individuals who are able to work but chose not to work should not receive assistance.

8) Medical care should be freely available to all Canadians and should conform to the highest possible standards. Two-tier health care is typical of third-world countries and Canadians deserve better than that.

Q: **Is the NSPC a White Supremacist organization?**

A: We are a racialist organization. We believe the White race is entitled to its own living space. At one time that consisted of Britain, Australia, Europe and most of North America. However, multiculturalism is destroying the remaining exclusively White territory on the planet. No race can survive for very long without its own living space. That is why we regard multiculturalism as implying the displacement, replacement, and the eventual extinction of the White race.

We regard the White race as the bearers of civilization and advanced culture. Most of what people regard as modern inventions have been the product of White ingenuity and creativity. We think that only those steeped in liberal Marxism can fail to note the difference between air-conditioned skyscrapers and mud huts; modern medicine and that practised by witch doctors; and between science and superstition. Most of the greatest cultural achievements of humanity have been accomplished by Whites from the Renaissance which gave us Shakespeare, Copernicus, Galileo, and Newton to modern space travel and the information technology revolution. 

Q: **What are the duties of new members?**

The duties of new members can be found in the [New Members' Guide](#) and can be downloaded [here](#). 

Q: **Does the NSPC have its own web forum?**

Our main web forum is at www.exterminance.org. You must be registered on the forum to view it. All our Party members are invited to join the forum.

b) The Chairman of the Senate will be selected by the members of the Senate from among their own members. He can only be removed from office with a two thirds majority of its members. He is to serve for a period of five years. The chairman of the Senate will have the title President of Canada and will be Canada's head of state. The jurisdiction of the Senate will consist of all matters related to national security: defense, intelligence, foreign relations, citizenship and immigration, foreign trade, national police, and aboriginal affairs.

c) The Senate will have the power to veto any legislation passed by the House of Assembly. It will have the power to recommend amendments to any proposed legislation of the House of Assembly and it will have the power to enforce the amending of any legislation passed prior to the implementation of this constitution and for ten years after its implementation.

d) The Senate will be empowered to implement a Charter of Rights and Duties. This Charter must include the rights of free speech, peaceful assembly, freedom of religion,

and the right to bear arms by citizens. Once written and implemented the Charter can only be revised through an amendment to this constitution.

e) The Senate will be empowered to implement referenda on a national level concerning items deemed important. Citizens may petition the Senate to hold a referendum on matters of importance to the citizenry.

B. Executive

The executive branch shall include those agencies of government under the jurisdiction of the President or Prime minister (and their respective cabinets). Where the jurisdictions overlap the Prime Minister shall consult with the President.

C. Judicial

All judges and magistrates within Canada must be citizens of Canada and must swear allegiance to this constitution.

CITIZENSHIP:

Residents of Canada will consist of citizens, subjects, and guest workers.

I. Citizens must be of at least 75% White European extraction. They cannot be Jews or of the Jewish religion. Citizenship courts will be established under the judicial branch of government to judge all cases of ambiguous ancestry based on the best available science. Only citizens shall have the right to vote in elections at the national, provincial, and local levels. Only individuals of at least 75% White European ancestry shall qualify as naturalized citizens.

II. Subjects will be those permanent residents of Canada at the time this constitution is implemented who do not qualify for citizenship. The Senate may, at its discretion, implement policies encouraging and, if necessary, enforcing repatriation.

III. Guest workers will be those residents of Canada who do not have the status of citizen or subject. The Senate may, at its discretion, implement policies preventing the immigration of people who do not qualify for eventual citizenship.

IV. As subjects of Canada, the aboriginal people are not citizens and do not have the right to vote. However, the Senate may, at its discretion, give the aboriginal peoples self-government over their own territories with the accompanying right to vote on matters within their jurisdiction.

AMENDMENT:

This constitution may be amended only by a two thirds majority of The House of Assembly, a two thirds majority of the Senate, the endorsement by the President, and a 50% plus one vote in a referendum by the citizens of Canada.

Resistance

We are dedicated to peaceful revolutionary struggle for National Socialism and White sovereignty within Canada.

However, it must be remembered that Canada is not currently a free country but is under Jewish/Zionist control. We are suffering under Judeo-Liberalism and drifting toward [Judeo-Fascist](#) tyranny.

We support the right of political dissent for all White people in all lands. This implies resistance to the current status quo. We must be prepared for all eventualities, as much as that is humanly possible. We propose that our local units structure themselves as resistance cells modelled after the [Committees of Correspondence](#) prior to and during the American Revolution.

There will be difficult and challenging times ahead. Our strategy is that the Party be established on the basis of semi-autonomous cells consisting of 5 to 10 members each. Each cell should subdivide into two upon reaching 10 members. Each cell should then grow, through recruitment, to 10 members and subdivide again. This is analogous to cell division within biological organisms. As need arises, the various cells in each geographical area can cooperate on projects. It is the duty of each member not currently part of a cell to begin one through recruitment.

The basis for our belief in the establishment of our Party on the basis of semi-autonomous resistance cells is to be found in Mein Kampf:

[For] winning back the independence of a nation [...] it will suffice if a small remnant, no matter how small, of this nation and State will exist, provided it possesses the necessary independence to become not only the vehicle of the common spirit of the whole people but also to prepare the way for the military fight to reconquer the nation's liberty. --Mein Kampf Vol.2 Ch.13

Electoral Politics

The NSPC is a party dedicated to our [goals](#) and [policies](#). We are dedicated to peaceful revolutionary struggle against Marxist Political Correctness and Multiculturalism. We want to form a White racialist state under a new [constitution](#) and the [Seven Points](#).

To the degree that electoral politics furthers these aims, we shall participate. Any member of our party who chooses to run under our banner in an election at the national, provincial or local level will have our full support and cooperation.

Many fringe parties have come and gone over the years. They make it their goal to become a registered party and then build a base of support. Our approach is different. We intend to build a base of support and then run candidates under our banner as "independents". When we have elected a substantial number of those, then, and only then, will we begin the process of becoming an officially recognized party. We think that point will come when we have around thirty thousand Party members.

In the meantime, the Party is to be structured on the basis of semi-autonomous cells which we can think of as resistance cells against the emerging Judeo-fascist tyranny. Each cell should consist of between 5 and 10 members. It should grow through recruitment to 10 members and then split into 2 cells of 5 members each. The process then repeats itself. Each Party member not currently part of a cell has the duty to begin one.

The Flag

Our flag is the proposed flag of National-Socialist Canada.

Symbolism:

- 1) It represents the Sun rising over the Ocean.
- 2) It represents the Creator in relation to the Creation.
- 3) It represents a New Dawn of radiant idealism under National Socialism.
- 4) It represents the radiant Sun of National-Socialism rising over the the Ocean of the people bringing energy, light, idealism and racial health.
- 5) The two White wavy lines represent the two founding settler peoples, the British and French, who crossed the ocean to bring civilization to the area that is now Canada.
- 6) The Swastika is the sacred and ancient symbol of the White race and represents the creative attributes of our people and the ideals of National-Socialism.

We express our appreciation and thanks to our Portuguese comrade Nuno C. for the design of the flag.

Q: What is the relationship between the NSM (in the United States) and the NSPC?

A: The NSPC supports the goals of the NSM in the United States. BUT, we consider ourselves to be the Party which represents National-Socialism in Canada. The NSPC was born on July 1st, 2006. It is now a member of the [World Union of National Socialists](#) representing Canada.

We have worked closely with the NSM since our Party was formed. Our Party leader did a number of radio shows which were broadcast by NSM88 Radio and can still be found in their archives. However, the NSPC and the NSM have a number of ideological, structural, and tactical differences.

Ideological: We support the [Seven Points](#) of National-Socialism based on the [Cotswold Agreement](#) worked out among various National-Socialist parties around the world under George Lincoln Rockwell's guidance. The NSM supports its [25 points](#) which resemble the [25 points of the NSDAP](#). We consider the 7 points to be fully implementable in Canada.

Structural: The NSM is organized as a hierarchy. We consider such a structure to be vulnerable to infiltration so we have structured the NSPC as [semi-autonomous cells](#). If such cells are infiltrated the contagion is limited to the infiltrated cell and does not go beyond that. Furthermore, local cells are more in tune with their local conditions and can respond to local situations more effectively than waiting for policy directives from the top down.

Tactical: The main difference on tactics is the open display of uniforms. Our policy on uniforms is that they are for our security detachment only and even this policy is yet to be implemented. 

Q: Is the NSPC an official party in Canada?

A: We have made the decision NOT to become an official party at this time. To become an official party we would need to provide the government with the names and addresses of 250 members of our Party. Those addresses would then become public knowledge as part of a public document (See [Link](#)). When our Party reaches 30,000 members we will request 500 volunteers to submit their names in order to become an official party.

Nevertheless, we intend to contest the next federal election which we expect in the late Fall (of 2007) or early Spring (of 2008). We will be running candidates as Independents with National-Socialist Party of Canada Endorsement.

We are working on our electoral platform. Here is a copy of the first draft (subject to revision):

The guideline for development of this electoral platform is the [Seven Points](#) of National-Socialism and our [Party Policies](#).

1) Immigration should be based on country of origin and should conform to the ethnic demographics of Canada at the time Canada was declared a "multicultural country" in 1988. The Multiculturalism Act of 1988 should either be amended to reflect the importance of preserving and enhancing the European derived peoples of Canada or repealed altogether.

2) The open door policy towards refugees should be revised. Refugees currently in Canada should be removed from the track towards citizenship and should instead be repatriated when conditions in their home countries allow. Refugees found guilty of a criminal offense are to be repatriated after serving their sentence regardless of conditions in their respective home countries. New refugees should not be allowed unless they serve to preserve and enhance the European derived peoples of Canada. Other refugees should be refused entry.

3) Illegal immigrants should be arrested and repatriated. Those who knowingly hire illegals should be charged with a criminal offence. Companies or corporations that hire illegals as a matter of policy should have their license to do business removed.

4) Given that gun ownership by law abiding citizens serves to reduce crime and given that gun ownership is part of the traditional Canadian way of life, responsible gun ownership is to be allowed and encouraged.

5) Capital punishment should be applied for severe offenses such as premeditated murder, the distribution of illegal drugs, treason, and rape when accompanied by physical violence or a death threat. In all death penalty cases, the decision whether to impose the death penalty or life imprisonment (as an alternative) should be left in the hands of a jury subsequent to the determination of guilt.

6) Abortion should be a last resort option and can only be justified in cases of rape or the physical or mental impairment of the unborn child to be determined by the best available science.

7) Canadians who are unable to work and who require assistance should receive it. Those individuals who are able to work but chose not to work should not receive assistance.

8) Medical care should be freely available to all Canadians and should conform to the highest possible standards. Two-tier health care is typical of third-world countries and Canadians deserve better than that.

Q: **Is the NSPC a White Supremacist organization?**

A: We are a racialist organization. We believe the White race is entitled to its own living space. At one time that consisted of Britain, Australia, Europe and most of North America. However, multiculturalism is destroying the remaining exclusively White territory on the planet. No race can survive for very long without its own living space. That is why we regard multiculturalism as implying the displacement, replacement, and the eventual extinction of the White race.

We regard the White race as the bearers of civilization and advanced culture. Most of what people regard as modern inventions have been the product of White ingenuity and creativity. We think that only those steeped in liberal Marxism can fail to note the difference between air-conditioned skyscrapers and mud huts; modern medicine and that practised by witch doctors; and between science and superstition. Most of the greatest cultural achievements of humanity have been accomplished by Whites from the Renaissance which gave us Shakespeare, Copernicus, Galileo, and Newton to modern space travel and the information technology revolution. 

Q: **What are the duties of new members?**

The duties of new members can be found in the [New Members' Guide](#) and can be downloaded [here](#). 

Q: **Does the NSPC have its own web forum?**

Our main web forum is at www.extermination.org. You must be registered on the forum to view it. All our Party members are invited to join the forum.

Declaration of White Majority Rule in Canada

The regime currently in power in Canada is under the control of Jews who seek the displacement, marginalization, and eventual destruction of the White race. It operates behind the facade of democracy, the kind of "democracy" they had in the Soviet Union. But, my racial comrades, there is no democracy without freedom of speech!

Without free speech the democratic exercise simply becomes a farce and any government elected thereby lacks legitimacy except in the strictly narrow and arbitrary sense that it has the power to subject us to its rule by force. It has the police and the army. In other words it has the guns and we do not. How foolish we were to allow this regime to disarm us. We can drop pieces of paper in a ballot box but in a country without free speech the electorate cannot make an informed decision.

We cannot discuss the impact of non-White immigration. That is "hate speech". We cannot discuss the role of race in criminal activity. That is "hate speech". We cannot discuss the control exercised by the Israel-First lobby on our government. That is "antisemitism". We cannot discuss the destructive policy of multiculturalism. That is "hate speech". We cannot discuss the displacement of Whites from the work force through affirmative action. That is "racism". In other words, everything of concern to White nationalists is banned from discussion. The White majority has been effectively disenfranchised. It follows that this regime certainly does not represent the majority regardless of the outcome of dropping paper in ballot boxes. This regime has reached the end of its legitimacy.

We recognize the current regime in Ottawa to have lost its legitimate right to govern because it is responsible for a long train of abuses and usurpations, pursuing invariably the same Object ... to reduce us under absolute tyranny.

We demand a new government be constituted in Canada to defend and protect the interests of the White population and ensure the development of a White National Community that will secure our God-given and inalienable rights of free speech, free assembly, freedom of religion, the right to bear arms, and the right to petition the government for the redress of grievances.

Duties of new members

1)**Absorb N-S Theory and Practice:** We would like all our new members to familiarize themselves with the theory and practice of National-Socialism. To that end we advise new members to get a copy of Mein Kampf, either hard copy or [digital](#), and read it. New members are also advised to read [This Time the World](#), the autobiography of George Lincoln Rockwell.

2)**Promote Our Ideals:** Each member represents the ideals of National-Socialism to the world around him (or her). Our society is permeated with negative images of 'Nazis' through the Jew-owned and Jew-controlled news and entertainment media. It is important that your behavior counteract the negative stereotypes. However, many people will reject you anyway upon discovering your views regarding race, the Jews, and the future we desire for our country. Some you will be able to persuade to our views and some you will not. You should see all White people as being on a time line. Your words and actions will be remembered and will percolate in their minds for perhaps years before the lights come on and they wake up from their Jew-media induced slumber. Others are simply traitors to our people and should be recognized as such. Knowing the difference takes time and experience. You might make mistakes at first.

3)**Become active:** Different people have different levels of comfort with open or street level activism. Many have families and cannot afford to lose their jobs. Others have sensitive positions in government and/or the military. We understand that such members cannot be as open with their activism as others. The important thing is that you do something, even if you think it is insignificant. Even if you cannot commit yourself to open activism you can at least support the cause financially, even if that is just five dollars a month.

It is often the case that friends, family, and co-workers have the same ideas or questions as you but are afraid to voice them. Ask them questions about immigration, non-White crime, and homosexual 'rights' and see what they think. Be prepared to listen even if you strongly disagree. Listening to the views of others will earn you the right to tell them yours. You do not need to give them the entire theory and practice of National-Socialism in one shot. Ask questions and give them little bits of information at a time. Most people are quite intelligent but have been given false information in the past. Give them true information but in small doses.

4)**Recruit:** This goes along with becoming active. Many, perhaps most, of our problems require a political solution. We know there is a spiritual dimension to it all and we do not want to minimize that but we have to realize we are fighting a political war for blood and soil (Blut und Boden) and that war must be fought by building a strong political organization. That requires recruitment.

5)Build your cell (local unit): Some members have been recruited into local units and others have joined after reading our website. If you are currently not a member of a cell it is your duty to begin one. You will then be the leader of that cell. Our strategy is that the Party be established on the basis of semi-autonomous cells consisting of 5 to 10 members each. Each cell should subdivide into two upon reaching 10 members. Each cell should then grow, through recruitment, to 10 members and subdivide again. This is analogous to cell division within biological organisms. As need arises, the various cells in each geographical area can cooperate on projects. They are also encouraged to meet socially and build strong bonds of comradeship.

The basis for our belief in the establishment of our Party on the basis of semi-autonomous resistance cells is to be found in Mein Kampf:

[For] winning back the independence of a nation [...] it will suffice if a small remnant, no matter how small, of this nation and State will exist, provided it possesses the necessary independence to become not only the vehicle of the common spirit of the whole people but also to prepare the way for the military fight to reconquer the nation's liberty.

--[Mein Kampf](#) Vol.2 Ch.13

6)Meet regularly: We want to build strong bonds of comradeship among members of the Party. This serves not only to build a network of trust among comrades but also serves to counteract some of the rejection that new members might possibly receive from 'friends' and family. And there will be rejection sometimes. We have members who have been entirely disowned by their families but have found their Party comrades to be like a family.

7)Avoid discouragement: This is sometimes easier said than done. We have a huge task ahead of us. Even if we were to achieve power tomorrow it would take decades, perhaps as long as a century, to undo the damage the Jews and their treasonous White collaborators have done to our country. Rome was not built in a day and Canada cannot be rebuilt in a day, a week, or even a year. So, work hard but be patient with yourselves and with the Party. The important thing is to get the process moving in the right direction. When you get discouraged remember these words from The Turner Diaries:

But one thing which is quite clear is that much more than our freedom is at stake. If the Organization fails in its task now, everything will be lost: our history, our heritage, all the blood and sacrifices and upward striving of countless thousands of years. The Enemy we are fighting fully intends to destroy the racial basis of our existence. No excuse for our failure will have any meaning, for there will be only a swarming horde of indifferent, mulatto zombies to hear it. There will be no White men to remember us, either to blame us for our weakness or to forgive us for our folly. If we fail, God's great Experiment will come to an end, and this planet will once again, as it did millions of years ago, move through the ether devoid of higher man.

--[Turner Diaries](#), p.31

8)Support the Party financially: This is something everyone can do. Even if you cannot become involved in open or street level activism you can assist the Party financially. There is a saying that 'money is the mother's milk of politics'. There is a lot we could be doing but, due to a lack of funds, we cannot do. Our Party does not require membership dues from our members but we do expect and need

your financial support, to the extent that you are able. We consider 10 dollars a month to be within everyone's means. Some might be concerned about a paper trail. Then send well-concealed cash. You can even be 'creative' with the return address if you like. You can send cheques, money orders, or well-concealed cash to:
